

IMPACT AMBASSADORS PROGRAM: ACTIVATING A COMMUNITY OF CORPORATE LEADERS FOR IMPACT

JOIN A PEER-TO-PEER PROGRAM ON HOW TO EMPOWER PURPOSE-DRIVEN LEADERS AND BUILD A COMMUNITY OF INTERNAL CHANGEMAKERS.

Social and environmental impact in the corporate sector is often confined to CSR, ESG, or reporting, missing the potential for deep integration within the business. There is an opportunity to drive real impact by leading the change and empowering teams within the core business to become change agents, encouraging a culture of impact. By equipping them to understand, champion, and lead impact initiatives, companies can ignite meaningful transformation that drives social value and measurable performance outcomes.

This is why **Ashoka Changemaker Companies** and **Impact Europe** have joined forces to offer a peer-to-peer learning journey for senior leaders employees with a drive and mandate to lead change.

JOIN THIS COMMUNITY OF PRACTICE TO:

- > **Refine your strategy** and lead the change through the creation of an action plan to implement your initiative within your company
- > **Exchange with your peer corporate leaders** where you can learn from each other and drive impact together
- > **1 Coaching session** to build leadership abilities connected to social and environmental impact ([additional coaching sessions are available and optional](#))
- > **Practical tools**, access to peers, live case studies, actionable insights
- > Crystalize your learning: creation of the **personalized action plan**
- > **Build a community** of internal changemakers

THIS IS FOR YOU IF:

- You are a **corporate leader** in CSR, Sustainability, Philanthropy, Procurement, HR or other core business departments with the mandate and desire to lead change.
- You have **personal interest in creating a culture of impact** in your company and willingness to share and learn with peers.
